

# CRYPTO MEXICAN FIGHTERS

Crypto Mexican Fighters are 10,000 unique collectible characters. ERC-721 Non-Fungible Tokens (NFT) with proof of ownership stored on the Ethereum blockchain.  
The CMFs are 1500 x 1500 pixel art images inspired by mexican fighters (luchadores) masks.

Each Crypto Mexican Fighter character is a unique pixel art image generated algorithmically, 10% of the gains that the collection makes will be donated to a non-profit foundation.  
The collection seeks to give more exposure to the traditional "Lucha Libre" in Mexico but with a twist of the crypto community.

Welcome to the fight club!

### NORMAL

### Copyright Transfer

It is our opinion that a blockchain transaction satisfies the legal requirement for copyright transfer. So copyright ownership of each individual image is adjudicated by the Ethereum address for which the non-fungible token (NFT) of that image is assigned. Upon transfer or sale of the NFT to a new owner, the previous owner gives up all claims to the copyright.

## DONATION

We are talking with various non profit foundations in Mexico and Worldwide to concretize the donation after the mint.
